PLUS: Flinders Island Mountains in the sea • The Design Disrupter Building a knowledge farm

Essential Minimalism

The "LV Track Light" by BENTU has an uncomplicated cylindrical body that creates a surface without beginning or end, providing a lovely textural accent to the piece – it also happens to be made from recycled concrete with a black anodised aluminium pivot arm and fixings. Nice!
remodern.com.au/bentu

Successful Application

The "Newton" is a durable and functional non-electric espresso machine with a gorgeous wooden base that also allows for wall mounting if you need to save on space, Genius.
