The hard Line is the bottom Line

CERAMICS MADE, from China's progressive design studio **Bentu**, is a collection of tables, shelving, pendant and wall lights made with pieces of ceramic tiles mixed with concrete to create a speckled terrazzo effect.

remodern.com.au

The **ARIAKE** Collection is a new Japanese furniture brand from Saga, Japan, and brings together designers from different countries with a common respect for Japanese culture and woodworking. Available exclusively in Australia through **Apato**.

apato.com.au

LINEA is a design collaboration between **Made By Pen** and designer **Jim Hannon-Tan**. Inspired by Oscar Niemeyer's National Congress building, this piece of desktop architecture is completely customisable, with the tray acting as a spine to cantilever the separate components, it's always fit for purpose in the spaces we live, work and play.
